Water Management

WATER MANAGEMENT ACT 1999

Section 11 Exemption Order

TEMPORARY CHANGE TO HYDRO TASMANIAS ENVIRONMENTAL FLOW RELEASE CONDITIONS FROM LAKE PARANGANA INTO THE MERSEY RIVER

I, GUY BARNETT, Minister for Primary Industries and Water, acting pursuant to section 11 of the *Water Management Act 1999*, hereby exempt the Hydro-Electric Corporation from the application of sections 116(3) and 123 of the *Water Management Act 1999* in so far as they relate to compliance with clauses (a) and (c) in Schedule 3 of the Agreement for Special Licence Conditions between the Hydro-Electric Corporation and the Minister administering the *Water Management Act 1999*, dated 30 August 2018 and section 3.6 (Environmental flow release from Lake Parangana) of the *Mersey Water Management Plan (July 2005)*.

This exemption is subject to the following conditions:

- Hydro Tasmania will release water from Lake Parangana that is no less than 160 ML/day.
- Hydro Tasmania will be required to:
 - maintain records that demonstrate the quantity of water released from Lake Parangana and provide them to DPIPWE in the manner specified by the Minister; and
 - provide instantaneous flow records measured at Hydro Tasmania's Mersey River at Liena stream flow gauging station to DPIPWE to allow for management of flows in the catchment over the trial period.
- In the event of:
 - a forced outage of the mini-hydro power station; or
 - planned maintenance on either the mini-hydro power station, the electricity transmission line connected to the mini-hydro power station, or any associated works;

that will effect downstream flows, the Licensee shall notify the Secretary (or his or her nominee) at the earliest opportunity.

This exemption ceases to be in force on 1 November 2021.

Minister for Primary Industries and Water

Dated this 28th day of October 2020.

Information

The purpose of this Order is to exempt Hydro Tasmania from a requirement in the Mersey Water Management Plan and clause (a) in Schedule 3 of its Special Water Licence Agreement to provide water from Lake Parangana so that the flow as measured in the Mersey River at Liena gauging station will exceed the lesser of either: 173 ML/day; or 8.25 times the flow measured at the Arm River above Mersey gauging station. It also exempts Hydro Tasmania from the requirement in clause (c) in Schedule 3 of its Special Water Licence Agreement regarding their reporting obligations for any force outages of the Parangana mini-hydro power station. The exemption is subject to conditions that are specified in the Exemption Order. The exemption is necessary to enable Hydro Tasmania and DPIPWE to trial a new flow release and determine if there is any financial, social or environmental risk associated with the proposed change to stakeholders in the Mersey River catchment.
